Dear Mr. Kasimov:

We are writing to recognize .ART's support of ICANN's multi-stakeholder work through the contribution of Kurt Pritz's time on ICANN's GDPR policy development.

We recognize the importance of participation by many entities, both large and small, and also understand the time provided was a significant contribution of .ART's resources.

Please accept our thanks for your past and, hopefully, future participation in the ICANN ecosystem.

Sincerely,

Cherine Chalaby, Chair  
ICANN Board of Directors
