

Subject: [Correction] ICANN Registrar Naming Services Portal Welcome: Instructions Included

Please note the previous email included a broken link. This is a duplicate email with the link corrected.

Dear Registrar,

Welcome to the Naming Services portal!

The ICANN organization is pleased to introduce you to a new tool that will streamline the way you conduct business with ICANN.

Here's a quick summary of what you need to know to get started:

- You will receive a separate activation email.
- [Resources](#) include the [Naming Services portal User Guide for Registrars](#), [FAQs](#), [slide demonstration](#), and the [Terms of Use](#).

Please note that the portal will provide periodically updated read-only access to limited information regarding select compliance tickets. The ICANN Contractual Compliance ticketing system and emails remain the authoritative source of compliance ticket data and RADAR remains the system of record for registrar contact information.

If you need assistance, send an email to registrarservices@icann.org.

Kind Regards,

Regards

Neeraj Sood
