

**Subject:** ICANN Temporary Specification Now In Effect & Webinar Announcement

Dear GDD Stakeholder,

On 18 May 2018, we shared that the ICANN Board of Directors approved the proposed [Temporary Specification for gTLD Registration Data](#) (“Temporary Specification”) which is now in effect. The Board took this action to establish temporary requirements for how ICANN and its contracted parties will continue to comply with existing ICANN contractual requirements and with community-developed policies as they relate to WHOIS, while also complying with the European Union's General Data Protection Regulation (GDPR).

So that we can provide further guidance and you can learn how your organization may be affected by the Temporary Specification, we have scheduled a one-hour, interactive webinar on 06 June 2018. This will be a live webinar, held in English, and we encourage you to email your questions ahead of time to [globalsupport@icann.org](mailto:globalsupport@icann.org) with “GDD Temp Spec Webinar” in the email’s subject line. A recording of the webinar will be posted as soon as possible on [icann.org](http://icann.org).

### **Webinar Details & How to Attend**

Date: 06 June 2018

Time: 16:00 - 17:00 UTC

Join via Adobe Connect meeting [here](#) (Link activation 05 June 2018)

View Dial-In Information [here](#)

Participant Code: 8021705257

Should you have any questions, please email [globalsupport@icann.org](mailto:globalsupport@icann.org) or contact your engagement manager.

Kind regards,

Cyrus Namazi
